Subject: funding available for Lead Testing in Schools grant program
Attachments: New_Allotments_After_NOIP_Closed_May202020.docx

As was mentioned on our call this morning with the state drinking water directors, an earlier email in May 2020 about state allotments for the WIIN Act 2107, Lead Testing in Schools grant program, contained an incorrect reference to federal fiscal year. My concern is that you may not have realized that the funding was available to you this year. I have attached the memo containing the allotments. You can submit applications for this funding now. Awards will be made in FY 2021.

All applications need 424 and 424A forms and revised workplans. Please copy George Rizzo and your state program manager on your submissions. (Unfortunately, Scott Bowers has left EPA for graduate school.)
